What Women are Saying...

Women in your middle years, what would you give to be whisked away from the cares of your daily life (by such colorful Spirit Guides as Belladonna Morose and Mea Culpepper); to be taken to a magical realm where you'd discover the secrets of the ages that women have known since the world was new? Fortunately, to gain all the warmth, humor and wisdom of this special women's retreat, you only have to read Deborah's captivating novel, **IN SEARCH OF THE MENOPAUSE RANCH**.

"I loved this book! Men, women, ancient history, the church, witches, inquisition, Gods and Goddesses—everything you wanted to know about how you got to where you are and what you can do about it. What will we do with our menopausal zest? How can we change our immediate worlds for the better—one woman, one town at a time?"

Read this book—well researched, fascinating in its portrayal of history we never learned in school. All women will recognize themselves or others they know in the characters found at the Menopause Ranch. Laugh, weep, and then apply its lessons in your life. A great experience!"
